

Description

Link to github : <https://github.com/piumi123/XNA-game>

This game is called as Fruits Plucker. There is a monkey. Monkey can move up using paddle. Paddle can move using Right and Left arrow keys. There is an orange move here and there. If monkey catch an orange, marks will be added. There is a bomb going through the screen as well. If monkey collide with the monkey, monkey will destroy. Then game will start from the beginning.
